100 You hid the killing of endangered species from wildlife officials

97 You cut down trees in your farm

84 You killed a gorilla

77 You taught others how to construct bee hives

73 You taught people not to farm in water catchments

70 You over collected useful plants from the forest

55 You stopped the trade of baby gorillas and gorilla meat

48 You stopped using poison to catch fish

42 You started forest fires reducing the size of the gorillas forest

39 You reduced the number of traps you set in the forest

37 You hunted endangered species

22 You taught people not to burn the gorillas forest

17 You taught others Cameroons wildlife laws

11 You taught others to protect endangered species

Donated free by the Wildlife Conservation Society in support of Cross River Gorilla Conservation

The Cross River gorilla is the most endangered gorilla subspecies and is restricted to the hilly rainforest region along the Nigeria-Cameroon border.

There are only approximately 250 Cross River gorillas remaining in the wild and they are completely protected by international law, meaning that they must not be hunted or caught.

Unfortunately, hunting and the destruction of forests in which the Cross River gorillas live still occurs. Play this game to learn how you can conserve the Cross River gorilla, one of nature's most precious gifts.

Rules:

The game can be played by two or more players. Each player has a counter, which is placed on square one, the starting square. Take it in turns to roll the dice and move forward across the board.

If you land at the bottom of a liana, you have done something to protect the gorillas, so climb up to the nest at the top.

If you land at the top of a hunting spear, you have done something to threaten the survival of the gorilla's and their forest, so slide down to the bottom.

If you roll a 6 on the dice, you get another turn. The first player to reach square 100, the finishing square, is the winner.
